

## 第 18 届国际土力学及岩土工程学术大会论文

序号	作者	论文题目
1	X.H. Bai, J. Yang, F.L. Ma	Experimental Study on Effect of Initial Moisture Content on Compressive Property of Compacted Loess Like Silt
2	R.P. Chen, Y.Ren, B.Zhu, Y.M.Chen	Deformation behavior of single pile in silt under long-term cyclic axial loading
3	Y.M. Chen, L.T. Zhan, X.B. Xu, H.L. Liu	Geo-environmental problems in landfills of MSW with high organic content
4	Z.H.Chen	Characteristics of structure evolution of expansive soil and loess during loading and wetting
5	L.M. Hu, H. Wu, Q.B. Wen	Electro-osmotic consolidation: laboratory tests and numerical simulation
6	M.S. Huang, H.Z. Liu	Fast frequency-domain analysis method for longitudinal seismic response of super-long immersed tunnels
7	M.J. Jiang, F. Liu, F.Y. Zhu, Y. Xiao	A Simplified Contact Model for Sandy Grains Cemented with Methane Hydrate
8	N.H. Li, J.L. Wang, Z.K. Mi, D.H. Li	Deformation safety of high concrete face rockfill dams
9	S.Y. Liu, G.J. Cai, Anand J. Puppala, Y.J.Du	Practice and development of the piezocone penetration test (CPTu) in geotechnical engineering of China
10	L.T. Shao, G. Liu, X.X. Guo	Uniform effective stress equation for soil mechanics
11	Y.J. Teng, J.M. Li, S.G. Wang	Experimental Study on the Method of Rebound and Recompression Deformation Calculation in Deep and Large Foundation Design
12	L.M. Wang, Z.X. Yuan, Q. Wang, Z.J. Wu	Performance-based Evaluation of Saturated Loess Ground Liquefaction
13	W.D. Wang, J.B. Wu, Y.H. Li	Super-long bored pile foundation for super high-rise buildings in China

14	Y.L. Xie, S.S. Zhang, H.G. Zhang, B.J. Liu	Subsoil Settlement Feature of Immersed Tube Tunnel in Deep Soft Subsoil with Heavy Siltation in Open Sea
15	G.H. Yang, Y.D. Luo, Y.C. Zhang, E.Q. Wang	Application of The Tangent Modulus Method in Nonlinear Settlement Analysis of Sand Foundation
16	Y.P. Yao, L.M. Kong	An elastic-viscous-plastic modeling of time-dependent behaviors of overconsolidated clays
17	Y.S.Ye, Q.L. Zhang, D.G. Cai, F. Chen, J.P. Yao, L.J. Wang	Study on New Method of Accelerated Clay Creep Characteristics Test
18	C.G. Zhao, J. Li, G.Q. Cai, Y. Liu	Critical State for Unsaturated Soils and Steady State of Thermodynamic Process
19	B. Liang, L.L. Jjin, N.Y. Zhao, S.N. Liang	Centrifugal and numerical analysis of geosynthetic-reinforced soil embankments
20	H.L. Liu, G.Q. Kong, X.M. Ding, T. Yu, G. Yang	Case Study on X-section Cast-in-place Pile-Supported Embankment over Soft Clay
